This is to be given the latter part of June, 1909. Scientific research, clinics, psychology, education and methods, and forensic questions, will be the subjects of lectures and courses by specialists. The course is intended for those who are professionally engaged in this work, or are interested in it, or who wish to prepare themselves for it. Institutional affairs and care for the inmates. Clinic for feeble-minded children. Care and education in institutions and forensic Psychiatry. Juvenile courts. Social care. Speech therapeutics (Articulation). Hygiene. Care for the deaf and dumb, the blind, and cripples.
